

RITUAL CATTLE STUNNING BOX

The ritual cattle stunning box is used for the complete immobilization of the cattle during cutting and bleeding.

After bleeding, a side flap is opened through which the animal falls out of the cage onto an ejection couch. The device fully complies with the requirements of Islamic law. The device is made entirely of stainless steel.

Construction and principle of operation:

- pneumatic control of 12 cylinders
- box fully enclosed
- made of stainless steel

TECHNICAL SPECIFICATIONS
